

India HIV Case Discussion – Case #2

BJMC-NARI-JHU

Presented April 16, 2008

43yo male HIV+ x6mos presents with skin coloured lesions over body x4mos and headache x1mos

Learning Objectives:

1. Discuss what infections are likely to present with nodular skin lesions in an HIV-infected person.
2. Describe risk of lepromatous leprosy and HIV co-infection.
3. Identify diagnostic procedures helpful in diagnosing nodular skin lesions in HIV-infected adults.
